

LAKSHAN NIRODHA

Cybersecurity Operations | SOC Analyst

Melbourne, VIC | 0411 746 994 | lakshannirodha@gmail.com | <https://linkedin.com/in/lakshan-nirodha> | <https://github.com/LakshanNirodha>
Subclass 485 - Full Working Rights | Open to Relocation | Available Immediately

PROFESSIONAL SUMMARY

Cybersecurity professional with hands-on SOC experience investigating live incidents and building detection engineering solutions. Skilled in Microsoft Sentinel, Wazuh, KQL and threat intelligence analysis. Combines IT support and network infrastructure experience with a strong foundation in security operations and cloud platforms. Seeking SOC Analyst or Security Operations roles.

TECHNICAL SKILLS

SIEM & Detection: Microsoft Sentinel, Wazuh, KQL, Log Analysis, Alert Triage, Incident Response, Custom Detection Rules

Threat Intelligence: MITRE ATT&CK, VirusTotal, GreyNoise, IOC Analysis

Network & Security: pfSense, SafeLine WAF, TCP/IP, Wireshark, Nmap, VPN, LAN/Fibre/Cabling, Microsoft Defender XDR

Cloud & Endpoint: Azure, Windows 10/11, Linux (Kali/Ubuntu), Docker, PowerShell, Git, M365 Admin Centre, Active Directory

Frameworks: NIST 800-53, NIST IR Lifecycle, CIA Triad, ITIL Fundamentals

WORK EXPERIENCE

IT Support Intern | Prima Printing, Noble Park North VIC

Aug 2026 - Present

- Provisioned and imaged laptops on a standard Windows 11 build, including BitLocker drive encryption setup
- Configured network printers and workstations via TCP/IP; resolved hardware and connectivity issues
- Provided Level 1 IT support across a high-volume print production and warehouse environment

IT Support Consultant (Contract) | Define Dermatology, Glen Waverley VIC

May 2026 - June 2026

- Deployed complete IT infrastructure for a new dermatology clinic, including M365 licences, workstation setup and network printer configuration
- Diagnosed and resolved Brother printer WiFi connectivity issue via dual-band frequency separation

Telecommunications Groundworker | SNS Tech, Melbourne VIC

March 2024 - June 2026

- Assisted with civil groundworks for NBN telecommunications infrastructure, including trenching, concreting and pit installation support

TECHNICAL PROJECTS

Microsoft Sentinel SOC Lab - Live Attack Investigation | Personal Project

May 2026

- Deployed Microsoft Sentinel on Azure; discovered a live Password Spray attack - 279 HIGH alerts, 57 accounts across 3 countries
- Triaged 4,790+ alerts using KQL; confirmed True Positive on Incident 482; wrote custom analytics rule mapped to MITRE ATT&CK T1110.003
- Cross-referenced attacker IPs with VirusTotal and GreyNoise; documented full incident response playbook on GitHub

Wazuh SIEM / pfSense Firewall / SafeLine WAF Labs | Personal Projects

2025

- Deployed Wazuh for endpoint monitoring and FIM; simulated and mitigated DoS attacks with pfSense; blocked SQL injection with SafeLine WAF

EDUCATION

Bachelor of IT - Cybersecurity Operations and Network Security | Melbourne Polytechnic | Completed May 2026

Diploma of Information Technology | Swinburne University of Technology | 2023

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Google Cybersecurity Professional Certificate (2026)
- CompTIA Security+ (In Progress)
- Microsoft Applied Skills - Azure Networking (2026)
- Microsoft AI Skills Fest - Security Pro Pathway (2026)
- ISC2 CC - Domain 1 Complete (2026)
- Immersive Labs - NIST 800-53, Splunk, Incident Response (2025)
- Mastercard Cybersecurity Simulation - Forge (2025)

PROFESSIONAL MEMBERSHIPS

- Australian Computer Society (ACS) - Associate Member (AACS)
- Australian Information Security Association (AISA) - Associate Member
